The push for Integrated Urgent Care

89% respondents say lack of capacity is a major reason for patient errors

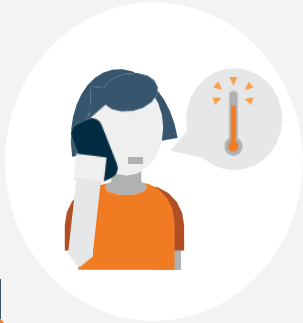

The push for Integrated Urgent Care

The right patient,
to the right clinician,
at the right time,
and the right place.

Using the right technology,
for the right outcome!

How hard can it be?

The push for Integrated Urgent Care

The push for Integrated Urgent Care

Established 2003 – first customer was SWAST

Health Sector – 50% of our clients continue to be in health across 111, OOHs, IUC and GP Federations

Push for Integrated Urgent Care

RIGHT CARE

RIGHT TIME

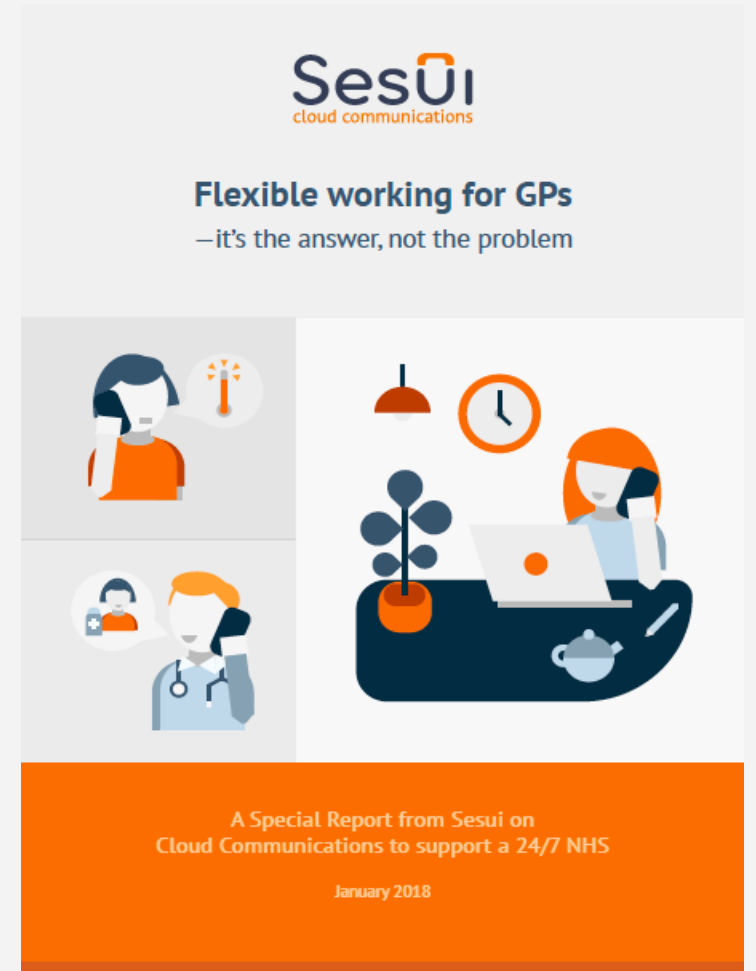

RIGHT PLACE

Understanding & Partnership

Flexible working for GPs - it's the answer, not the problem

A Special Report from Sesui on Cloud Communications to support a 24/7 NHS

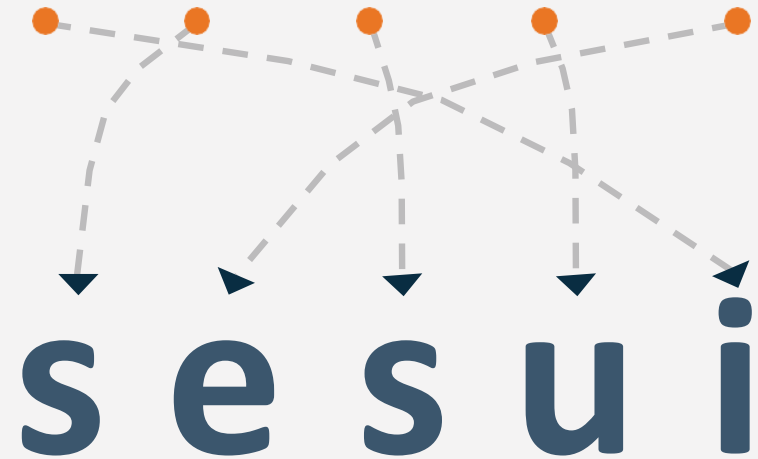

Our DNA

We're problem solvers
- it's hardwired into
our DNA.

But take a closer look...
it's also in our name. Got
an issue? Let Sesui solve it.

i s s u e

s e s u i

A diagram illustrating the rearrangement of the word 'issue' into 'sesui'. Five orange dots are positioned above the letters 'i', 's', 's', 'u', and 'e' in the word 'issue'. Dashed lines with arrows connect these dots to the letters in 'sesui' below: the first 'i' connects to the first 's', the first 's' connects to the 'e', the second 's' connects to the second 's', the 'u' connects to the 'u', and the 'e' connects to the final 'i'.

Thank you
